MONEY COMING IN.

The Special Tax Is Giving the Desired Results.

A special meeting of the city council was held Thursday evening to further consider the matter of protection for the town against high water. As most people know, a tax has been levied against all property owners in the city of 18 mills on the dollar. Tax Collector Brown several days ago completed the work of making out the list and cards were mailed to the property owners giving the amount of their share of the tax and requesting a prompt payment of the same. The day the cards were mailed a number of the heaviest taxpayers and a good many others settled up. Since then more money has been coming in daily and yesterday alone Mr. Brown collected several hundred dollars. This is very gratifying to those who have an interest in the town for it means that work will soon commence on the protection above the buttes. There are, however, still some who have not paid up and they are urgently requested to meet the tax at the soonest possible moment for even a few who are backward in the matter delay the whole proposition. It is a matter of much importance and it is hoped that work can

GONE AFTER CATTLE.

L. L. Harmon left for Prescott this morning intending to go from there to his cattle range to gather and ship a couple of hundred of steers to the valley. He expects to be absent about a week. He would have gone out yesterday morning but the clerk at the hotel where he stopped failed to awake him in time for the train and in consequence he is a day late. To be sure of getting there this time he took a berth last night.

He walked into a well kept restaurant and took away one of Saffell's 25c meals. He will call again.

WON BY LARGE SCORE.

The U. S. C. won a game of football this week from the Whittier school by a score of 75 to 0. The game was played in Los Angeles and the five Tempe boys who are attending the university took part in it. The Times of yesterday gives a good account of the game and also prints two illustrations; one of Juan Ochoa skirting the end and making a 75 yard run for a touchdown behind good interference by Chas. Halger, and the other of Mr. Halger placing the ball just over the line for another touchdown.

TO SEARCH FOR GRINDELL

Another Party May be Organized by Col. Kosterlitzky.

It is quite possible that by this time a second party is engaged in hunting the deserts of Sonora for some definite information concerning the fate of Tom Grindell, who left Douglas last June to explore the island of Tiburon, but who is now believed to be dead. His brother, E. P. Grindell, has done all that is possible for him to do and is now at the head of a third expedition, in company with the Papago Indian guide, who was with Tom Grindell's party and who left him later than any other person now known to be living or whose whereabouts are known.

The southern Arizona papers report that Captain Rynning of the ranger force has gone to confer with Colonel Kosterlitzky of the Mexican rurales. This is probably true, though no statement of the fact has yet been officially reported to the governor. It is understood that Capt. Rynning went in response to a message from Colonel Kosterlitzky, who had in mind the organizing of a party to search for Grindell. The Ranger Review attributes the following to Captain Rynning in an interview just before his departure:

"I was unfortunate in not being able to reach Sergeant Olds by wire, and getting him in with the party which started from Hermosillo yesterday with E. P. Grindell," said Captain Rynning this morning, "but now that I am asked to meet Colonel Kosterlitzky it is more than likely that I shall take up the hunt myself, whether in company with a force of rurales or possibly with Colonel Kosterlitzky himself."

"It will be just as well to have two or more parties on the hunt, and it is my opinion that one of the parties will locate the missing man, or ascertain what has happened to him within a very short time. Colonel Kosterlitzky has men in his command who know that country thoroughly, and there will be no haphazard searching and consequently but little more delay."

James Whitcomb Riley was looking over a fence on his farm at a field of rye, when a neighbor, who was driving by, stopped his horse and asked:

"Hello, Mr. Riley, how's your rye doing?"

"Fine, fine," replied the poet.

"How much do you expect to clear the acre?"

"Oh, about four gallons," answered Mr. Riley, soberly. Success Magazine.

FOR POOR CONSUMPTIVES

Mrs. Cleveland About to Establish a Home at Casa Grande.

Mrs. Emma Cleveland of Casa Grande, wife of the late H. J. Cleveland, former Indian agent at Sacaton, is preparing to open a consumptive home in that beautiful locality, where she has regained her health in the last eleven years. This is to be a home for poor consumptives and she hopes that it may be ultimately made self supporting. This will be a boon to many for now proper treatment is beyond the financial reach of a large number of consumptive persons, who come to Phoenix, Tucson and other southern and central Arizona towns.

Mrs. Cleveland's plan is outlined in the following letter to W. P. Haynes of Tucson.

"Dear Sir—I want to start a home here for poor consumptives, the class that are not able to live at the hotels or other high priced resorts. I can accommodate a few now and I have a promise of two more. If I need them, I will take all who will come at \$10 per month. Will furnish room, good clean beds, wash, iron, give them all care except that required of a trained nurse, and I will also cook for them if they will furnish their own provisions. As to the climate in this valley, it is warmer during the winter than it is at Tucson, and it is just about the same in the summer as Tucson."

"I will do my best by all who will come. We can get plenty of fresh beef, milk and eggs and I have a garden which will furnish vegetables later on. I do not want rich people. They can live wherever they please. I want those poor souls who live in tents and cheap lodging houses, so-called 'cheap' where they have no care. Every dollar they pay will be expended in building up a home that I hope will some day be self supporting at least, so that I can provide for those who have no money. Please help me in this work and please tell your friends and ask Mr. and Mrs. M. R. Moore who I am also Judge and Mrs. Dean. I will appreciate any assistance that you may see your way clear to give me by sending people to me.

Please answer when it is convenient. I am very respectfully,

Colds

A cold is always the result of undue exposure to low temperatures. The rapid cooling of the surface, when not balanced by proper reaction, produces the congestion and inflammation of the nasal and bronchial membranes, commonly called a cold. As the slightest cold predisposes the individual to attacks of the most severe and dangerous character, the necessity for its quick cure need not be emphasized. Take

Chamberlain's Cough Remedy

as soon as the first indication of the cold appears and all dangerous results will be avoided. It not only cures a cold quickly but counteracts any tendency of a cold to result in pneumonia. This fact has been fully proven during the epidemics of colds and grip of the past few years. No case of either of these diseases having resulted in pneumonia when this remedy was used, has ever been reported to the manufacturers or come to their notice, which shows conclusively that it is not only the best and quickest cure for a cold, but a certain preventive of that dangerous disease—pneumonia.

There is no danger in giving this remedy to children as it contains no opium or other harmful drug. It is pleasant to take.
